### BENDIX Economat Automatic Washer

#### Undertow Agitator Washing

The familiar agitator combines with Bendix' exclusive Wondertub to create an amazing new washing action. Clothes and suds are drawn deep into hot, cleansing undertow currents.

#### Floataway-Flushaway Draining

Heavy soil drains out the bottom; light soil rises to the top, and drains down through the hollow agitator. Dirty wash-water never filters back through clothes.

#### Vacuum Drying

The wonder-working Wondertub gently extracts water from clothes. There are no deep creases, no broken buttons, and your hands never touch water!

#### IT TAKES CLEAN WATER TO WASH CLOTHES CLEAN

The Economat uses water only once. Dirty water, soap scum and suspended soil go down the drain where they belong. When washed in a clean-water Economat, your clothes are washed clean.

#### EXCLUSIVE RINS-SAVER

Saves up to 56 gallons of water every washday
